High and low range gears, 50.5" wheel base, standard differential, single tire, tire size, 205/80-12 and 255/65-12red6257 hrsRecent Repairs: Unit recently serviced, changed engine oil and filter, changed transmission/rear differential oil, greased suspension, checked air filter. Found intake rubber boot torn open; replaced it. Inspected brakes, suspensions components, coolant levels, all okay. PROBLEMS: Right front axle had torn outer CV boot, grease gone and likely needs a new axle assembly. Front differential pinion bearing loose, resulting in seal leaking. Removed CV axles, wheels, etc. to remove front differential, removed and disassembled to change bearing, found extensive damage to other internal bearings, one no longer available so replacement is needed. Front differential is apart and not in unit, rip in seat and small scuffs on	6257 hrs	\$100	4XAMH50A7DA072725
